

FOR THE HOSPITALITY INDUSTRY

We help companies make their housekeeping and other important jobs *easier, better, safer* and *faster*.

Integrating people, materials and equipment... to make companies better!™

GET BETTER REVIEWS

Has your property ever experienced negative reviews, either on-property or on a 3rd party review site, because a room was not satisfactorily cleaned? **We can help.**

Have guests ever experienced delays in room availability? Are there also service delays or similar issues in Food & Beverage, Engineering, Maintenance, Guest Services? **We can help.**

Have employees been injured due to work conditions or procedures? **We can help.**

Our leading Ergonomists know how to help you improve work practices and find the right tools to make hospitality job tasks easier, quicker and safer . . . and help employees be more productive . . . and healthier!

IMPROVE STAFF PERFORMANCE

Many rooms may look clean, yet still be less than sanitary for your guests. This lack of cleanliness is often because a number of cleaning tasks are beyond the physical abilities of housekeepers, who have to repeat the same exertions and postures all day long. **We can help.**

Perhaps housekeepers and other staff are hampered by injuries you might not even know about. Employees may not be using safe work practices, or might not have the right tools to do their best work. **We can help.**

Visit QP3ergosystems.com for more information.

Put QP3 ErgoSystems to work for you!

- **Ergonomics Assessments** of your Housekeeping, Food & Beverage, Maintenance and other departments.
